Hi Gaby,

The location is a homeless encampment on private property. Given that the location is in CD-8, I am looping in Renee, she manages the district and will work with CD-8's team on this issue.

The subject service request was opened in October 2019 for illegal dumping, miscellaneous items. It was closed on February 24, 2020 and referred to another department (unsure).

Can you please advise why the location has taken five months to process and what the department can do to ensure it is addressed as soon as possible? According to the resident, the rains have now caused the location to worsen.

Thank you, your help is appreciated.

Best,

Gaby
